About Plant Fairs Roadshow

We are a collective of specialist growers, award-winning nurseries and garden equipment suppliers who organise and create memorable gardening events at some of the best gardens and venues in south-east England. Our expert growers offer an amazing array of interesting and unusual plants that are hard to find, as well as being on hand to provide you with the best possible advice on how to grow them.

We are all working towards reducing our environmental impacts, from growing peat-free to lessening our reliance on single-use plastics. With this in mind, it would really help if you could bring your own reusable bags wherever possible.

Chelsea Flower Show 2024

Following a very successful inaugural appearance at Chelsea Flower Show last year, we are delighted that seven of our nurseries will be returning this May. rhs.org.uk

Timed-Entry Admission

Our busiest events may use timed-entry ticketing, particularly at peak times and this innovation has helped us to reduce queues and improve the service each of our experts offer. To avoid disappointment on the day, we would encourage you to check the website to determine whether or not you need to pre-book. Please note that most admission fees include access to both the fair and the garden but some events do require an additional garden entry fee.

All information is correct at time of printing but for the most up to date information, please check our website and follow us on social media as details may be subject to change at short notice.
